# MaxxShield: EASY CLEAN GLASS TREATMENT

MaxxShield is a single component easy to use coating for glass that repels both oil based and water based stains and renders the surface easy to clean.

The need to use harsh and often toxic cleaners is eliminated, needing only a simple wipe with a microfibre cloth and water or a mild detergent to keep surfaces clean. MaxxShield provides high quality maintenance solutions across multiple product ranges.

## MAXXSHIELD BENEFITS

- Easy to clean: Repels both oil and water-based substances.
- Durability: Chemically bonds to the substrate and is supplied with a 5-year limited warranty. Revitalizer products are not required to maintain performance.
- User friendly: Easy-Clean surface eliminates the need for harsh, toxic, or chemical cleaners.

## MAINTAINING THE COATED SURFACE

MaxxShield helps reduce the build-up of dirt, grime, and soap scum on all interior and exterior glass surfaces.

- Clean regularly using a damp microfiber cloth and a mild detergent
- For best results dry with a good quality squeegee (recommended squeegee brands are Ettore and Pulex)
- In hard water areas clean with a damp microfiber cloth and a solution of white vinegar and water
- Be careful not to use any rough, gritty, abrasive, highly acidic or alkaline cleaners as they may damage the coating

## SUITABLE FOR ALL TYPES OF GLASS

- Tempered glass
- Laminated glass
- Insulated glass
- Ceramic frit
- Curved glass
- Silkscreened glass
- Low E glass

## APPLICATIONS

- Room partitions
- Railings
- Shower glass (screens and cubicles)
- Windows & Doors
- Mirrors
